

**REMARKS**

Applicant submits that the present amendment is fully responsive to the Office Action dated April 27, 2010 and, thus, the application is in condition for allowance.

By this reply, claims 1, 37, and 44 are amended. Claims 7-36 were previously withdrawn. Claims 1-6 and 37-50 remain pending. Of these, claims 1, 37 and 44 are independent. An expedited review and allowance of the application is respectfully requested.

In the outstanding Office Action, claims 1-6 and 37-50 were rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. It is asserted that the claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. Though not necessarily agreeing with the assertion in the Office Action, and solely to expedite the prosecution of this application, these claims have been amended accordingly and the objection should be withdrawn. The term “callee” has been replaced with “called party”, a term found, for instance, in paragraph [0038] of the specification.

In the outstanding Office Action, claims 1-6 and 37-50 were rejected under 35 U.S.C. § 101 because it is asserted that the claimed invention is directed to non-statutory subject matter. It is asserted that the newly added limitation in the claims is not clearly supported in the original disclosure because the “callee” has not been positively disclosed. Though not necessarily agreeing with the assertion in the Office Action, and solely to expedite the prosecution of this application, these claims have been amended accordingly and the objection should be withdrawn. The term “callee” has been replaced with “called party”, a term found, for instance, in paragraph [0038] of the specification.

No extension of time is believed necessary to enter this amendment. If any fees are associated with the entering and consideration of this amendment, please charge such fees to our Deposit Account 50-2882.

Applicant respectfully requests an interview with the Examiner to present more evidence of the unique attributes of the present invention in person. As all of the outstanding rejections have been traversed and all of the claims are believed to be in condition for allowance, Applicant respectfully requests issuance of a Notice of Allowance. If the undersigned attorney can assist in any matters regarding examination of this application, Examiner is encouraged to call at the number listed below.

Respectfully submitted,
